SUMMARY

Software Engineer with **4+ years of frontend experience** building and evolving enterprise and customer-facing applications with **React, Next.js, TypeScript, and JavaScript**. Delivered features for **Barclays' Risk & Finance Treasury platform**, contributed to a ticketing platform serving **15,000+ users**, supported a reported **35% sales increase**, reduced LMS load time by **40%**, and improved UI performance by up to **35%**. Experienced in data-heavy grids, bulk uploads and approval workflows; Next.js App Router/SSR/API Routes/middleware; BFF and REST integration; state management; accessible responsive UI; automated testing, CI/CD, and cloud-native delivery.

EXPERIENCE

IBM | Application Developer — Pune, India | Mar 2025 – Jul 2026

- Delivered production **React, Angular, and TypeScript** features for **Barclays' Risk & Finance Treasury platform**, converting evolving requirements into data-intensive enterprise workflows with advanced filtering, interactive tables/grids, persistent UI state, and multi-step approval experiences.
- Integrated frontend journeys with REST and microservice APIs; partnered with product, UX, backend, QA, and business stakeholders on solution design, trade-offs, documentation, and delivery plans in an evidence-driven, ambiguous environment.
- Improved engineering quality through unit, integration, and end-to-end testing, code reviews, linting/formatting, static analysis, conventional commits, CI/CD practices, and root-cause debugging of production and performance issues.

MOBIUX LABS | Software Engineer — Bengaluru, India | Aug 2023 – Jan 2025

- Built and shipped React purchase journeys and API-connected workflows for the **Wakefield Trinity ticketing platform**, serving **15,000+ users**; the work contributed to a reported **35% increase in sales**. Mentored teammates and participated in code reviews.
- Re-architected **Terra.Do's LMS** using reusable components, React/JavaScript performance practices, state persistence, and API-integration improvements, reducing load times by **40%**; managed component-level state and validated changes with unit and integration tests.
- Developed **Next.js** interfaces for **Aurbius Business Parks' facility-management product**, applying App Router, SSR, API Routes, middleware, and a BFF layer to compose backend services; built responsive, accessible workflows with Material UI (MUI), CSS-in-JS theming, complex tables, filtering, bulk uploads, and multi-step approvals.

ENVSAGE CLOUD SOLUTIONS | Frontend Engineer — Bengaluru, India | Jan 2023 – May 2023

- Built learning flows for **Edumentors UK's LMS**, contributing to a reported **60% increase in user satisfaction**; focused on responsive layouts, accessibility, reusable components, and clear feedback states.
- Delivered cross-platform UI for **NxtOrbit** with **React, TypeScript, Ionic, and Capacitor**, integrating REST APIs and managing global/atomic/contextual state with Redux Toolkit, Jotai, and Context API patterns.
- Built and enhanced experiences across **Bosch PMI** (plant-level inventory placement for Bosch security systems), **ClassTym**, **Kotak**, and **CoachPro**; implemented data-heavy tables, advanced filters, sorting, virtualized rows/custom renderers, bulk data flows, and persistent multi-step workflows in collaboration with backend and business teams.

PETPOOJA | Software Developer — Ahmedabad, India | Aug 2022 – Nov 2022

- Improved production **React.js** UI performance by **20%** through rendering and bundle-import optimizations; wrote and maintained unit, integration, and end-to-end tests; investigated defects with browser DevTools and root-cause analysis to improve reliability.

DEVX | Website Developer — Ahmedabad, India | Jun 2021 – Jun 2022

- Built and optimized a **React** coworking and facility-booking product with responsive, accessible interfaces, reusable components, advanced search/filtering, state persistence, and API-connected booking flows; improved performance by **35%** and achieved **Google PageSpeed scores above 90**.

PROJECTS

COTE -- REAL-TIME COLLABORATION PLATFORM — React, TypeScript, Node.js, Express, PostgreSQL, Prisma, Socket.IO

GitHub: github.com/SourabhRavi/cote-v2 | **Live:** cote.chitua.site

- Built and deployed a collaboration product with workspaces, channels, persistent messaging, real-time presence, and unread-message tracking; synchronized global and contextual UI state through Socket.IO events and TanStack Query.
- Implemented APIs with Prisma/PostgreSQL, Google OAuth, secure sessions, RBAC, cursor-based pagination, request validation, and reliable loading/error states; used automated tests and CI workflows to support safe iteration.

SKIM -- GENAI-POWERED PDF KNOWLEDGE ASSISTANT — React, TypeScript, Node.js, Express, Gemini, Qdrant, MongoDB

GitHub: github.com/SourabhRavi/rag-pdf-chat | **Live:** skim.chitua.site

- Built and deployed a responsive PDF assistant with bulk document upload, conversation history, streamed document-grounded answers, semantic retrieval, and REST APIs; implemented extraction/chunking, vector search, MongoDB persistence, Zod validation, and rate limiting.

SKILLS

Frontend Architecture: React.js, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, React Hooks, Next.js App Router, API Routes, middleware, component-driven architecture, reusable components
Data Workflows & APIs: Advanced data grids/tables, filtering/sorting, virtualization, custom renderers, state persistence, bulk file uploads, multi-step approval workflows, REST APIs, microservices, Backend-for-Frontend (BFF)
State & UI Engineering: Redux Toolkit, Jotai, Context API, Zustand, TanStack Query, RxJS, Material UI (MUI), CSS-in-JS, theming, responsive design, accessibility, performance optimization
Testing & Engineering Quality: Jest, React Testing Library, unit/integration/E2E testing, backend testing, code reviews, linting, formatting, conventional commits, static analysis, root-cause analysis, debugging, CI/CD, Webpack, Vite, npm/CLI
Cloud & Full Stack: Git, GitHub Actions, Node.js, Express.js, PostgreSQL, MongoDB, Prisma, OAuth, JWT, RBAC, Agile/Scrum, technical documentation, mentoring, stakeholder communication

EDUCATION

University of Engineering and Management, Kolkata — Kolkata, India | Jun 2016 – May 2020

B.Tech. in Electronics and Communication Engineering | CGPA: 7.95/10
