

Sourabh Kumar Ravi

Software Engineer | React, TypeScript, Next.js, Angular | Scalable & High-Performance UI

sourabh.k.ravi@gmail.com | +91-7250465621 | Portfolio: chitua.site | linkedin.com/in/sourabh-k-ravi | github.com/SourabhRavi

EXPERIENCE

IBM | APPLICATION DEVELOPER

Pune, India | Mar 2025 – Jul 2026

- Delivered production **React.js/Angular/TypeScript** features for Barclays' Risk & Finance Treasury platform, contributing to critical enterprise workflows supporting credit-risk operations.
- Implemented complex frontend workflows within a large-scale enterprise application, working across **UI components, application logic, and API-integrated user flows**.
- Investigated and resolved production issues through **root-cause analysis, debugging, and performance optimization**, improving reliability of business-critical workflows.
- Delivered a major feature within the **second sprint** and refactored legacy frontend modules to improve maintainability and simplify future development and troubleshooting.

MOBIUX LABS | SOFTWARE ENGINEER

Bengaluru, India | Aug 2023 – Jan 2025

- Led development of a **React.js** ticketing platform serving **15,000+ users**, owning frontend feature delivery across production workflows and contributing to a **35% increase in sales**.
- Built and maintained **reusable React components and application workflows**, improving frontend consistency, maintainability, and development velocity.
- Integrated frontend functionality with backend services and optimized application rendering and delivery to improve production performance and user experience.
- Investigated and resolved complex application issues, applying **systematic debugging and root-cause analysis** to improve stability across production flows.

PETPOOJA | SOFTWARE DEVELOPER

Ahmedabad, India | Aug 2022 – Nov 2022

- Optimized a production **React.js** application, improving performance by **20%** through rendering optimizations and more efficient bundle imports.
- Diagnosed and resolved high-priority production issues through **root-cause analysis and frontend debugging**, improving application stability and reliability.

DEVX | WEBSITE DEVELOPER

Ahmedabad, India | Jun 2021 – Jun 2022

- Rebuilt and optimized a production **React.js** coworking platform, improving application performance by **35%** through frontend and rendering optimizations.
- Improved web performance and delivery efficiency, achieving **Google PageSpeed scores above 90** across the application.

PROJECTS

SKIM

REACT, TYPESCRIPT, NODE.JS, EXPRESS, GEMINI, QDRANT, MONGODB, LLM

GitHub: /rag-pdf-chat

- Engineered a full-stack **Retrieval-Augmented Generation (RAG)** application for conversational question answering over uploaded PDFs using **Google Gemini** and Qdrant.
- Built the end-to-end AI pipeline covering **document ingestion, text extraction, chunking, embeddings, vector similarity search, context retrieval, and streaming LLM responses**.

COTE

REACT, TYPESCRIPT, NODE.JS, EXPRESS, POSTGRESQL, SOCKET.IO

GitHub: /cote-v2

- Engineered and deployed a real-time collaboration platform with **persistent messaging, workspaces, channels, presence, and event-driven communication**.
- Designed **REST APIs**, session-based authentication, RBAC, workspace membership, invitations, and authorization using Node.js, Express, and PostgreSQL.
- Implemented **event-driven workflows** with Socket.IO for message, presence, channel, and multi-socket user events.

SKILLS

Frontend: React.js, Next.js, TypeScript, JavaScript, HTML5, CSS3, Tailwind CSS, Angular

State & Architecture: Redux Toolkit, Zustand, React Query, RxJS, Context API, Micro Frontends, Component Architecture

AI & Real-Time: LLMs, RAG, Google Gemini, Vector Embeddings, Semantic Search, Streaming AI, Socket.IO, WebSockets

Performance: Code Splitting, Lazy Loading, Memoization, Virtualization, Caching, Rendering Optimization, Chrome DevTools

API & Backend: REST APIs, GraphQL, Node.js, Express.js, PostgreSQL, MongoDB, Qdrant

Security & Testing: JWT, OAuth, Secure Sessions, Jest, React Testing Library, Unit Testing, Integration Testing

Tooling: Vite, Webpack, Git, GitHub, NPM

EDUCATION

University of Engineering and Management, Kolkata

Kolkata, India | Jun 2016 – May 2020

B.TECH. IN ELECTRONICS AND COMMUNICATION ENGINEERING | CGPA: 7.95/10
