

Sourabh Kumar Ravi

Full Stack Engineer | React, TypeScript, Node.js | GenAI & RAG

sourabh.k.ravi@gmail.com | +91-7250465621 | Portfolio: chitua.site | linkedin.com/in/sourabh-k-ravi | github.com/SourabhRavi

SUMMARY

Software Engineer with 4+ years of experience building production web applications, with expertise in React.js and TypeScript and hands-on full-stack development using Node.js, Express, PostgreSQL, and MongoDB. Built applications featuring REST APIs, authentication, role-based authorization, real-time communication, and AI-powered document retrieval. Applies AI-assisted engineering for codebase exploration, implementation planning, code generation, debugging, refactoring, and test drafting. Built a Generative AI RAG application using Gemini and Qdrant. Improved LMS load times by 40% and contributed to a ticketing platform serving 15,000+ users.

PROJECTS

SKIM - AI-POWERED PDF CHAT

REACT, TYPESCRIPT, NODE.JS, EXPRESS, MONGODB, GEMINI, QDRANT

GitHub: github.com/SourabhRavi/rag-pdf-chat | Live: skim.chitua.site

- Built a React and TypeScript PDF-chat interface with document uploads, conversational history, and streaming AI responses using Google Gemini.
- Developed Express APIs with Zod validation and rate limiting; implemented PDF extraction, chunking, embeddings, semantic retrieval using Qdrant, with MongoDB for application data.

COTE - REAL-TIME COLLABORATION PLATFORM

REACT, TYPESCRIPT, NODE.JS, EXPRESS, POSTGRESQL, PRISMA, SOCKET.IO

GitHub: github.com/SourabhRavi/cote-v2 | Live: cote.chitua.site

- Built a full-stack collaboration app with React, TypeScript, TanStack Query, workspaces, channels, persistent messaging, member management, and cursor-based message pagination.
- Developed Express REST APIs with Prisma/PostgreSQL, Google OAuth and secure sessions, role-based authorization, and Socket.IO for real-time messaging, typing indicators, and presence.

EXPERIENCE

IBM | APPLICATION DEVELOPER

Pune, India | Mar 2025 – Jul 2026

- Delivered production React.js, Angular, and TypeScript features for Barclays' Risk & Finance Treasury platform, integrating UI workflows with backend APIs for enterprise credit-risk processes.
- Applied **AI-assisted engineering workflows** to explore legacy codebases, trace dependencies, decompose requirements, investigate defects, refactor modules, and draft unit tests; reviewed suggestions for correctness, security, and maintainability.

MOBIUX LABS | SOFTWARE ENGINEER

Bengaluru, India | Aug 2023 – Jan 2025

- Led frontend development of a production React.js ticketing platform for Wakefield Trinity, serving **15,000+ users** and contributing to a reported **35% increase in sales**.
- Re-architected Terra.Do's LMS, reducing load times by **40%**; developed reusable React components, integrated backend services, and optimized rendering.
- Developed a **Facility Management System for Aurbius Business Parks** for resource tracking and maintenance workflows; used AI-assisted development for implementation planning, code generation, debugging, and refactoring, and introduced **CodeRabbit** for AI-assisted code reviews.

ENVSAGE CLOUD SOLUTIONS | FRONTEND ENGINEER

Bengaluru, India | Jan 2023 – May 2023

- Revamped Edumentors UK's LMS using React.js, contributing to a reported **60% increase in user satisfaction scores**.
- Developed NxtOrbit cross-platform features with Ionic and Capacitor, and implemented Bosch PMI app features to track and record changes and maintenance activities in facility security systems.

PETPOOJA | SOFTWARE DEVELOPER

Ahmedabad, India | Aug 2022 – Nov 2022

- Improved production React.js application performance by **20%** through rendering optimizations and efficient bundle imports; resolved production defects.

DEVX | WEBSITE DEVELOPER

Ahmedabad, India | Jun 2021 – Jun 2022

- Rebuilt and optimized a production React.js coworking platform, improving performance by **35%** through frontend and rendering optimizations.
- Improved web performance and delivery efficiency, achieving Google PageSpeed scores above **90**.

SKILLS

Languages & Frontend: JavaScript (ES6+), TypeScript, React.js, Next.js, Angular, HTML5, CSS3, Tailwind CSS

Backend & APIs: Node.js, Express.js, REST APIs, GraphQL, Zod Validation, Middleware, Rate Limiting, Socket.IO, Server-Sent Events

Databases & Security: PostgreSQL, Prisma ORM, MongoDB, Mongoose, Qdrant, Google OAuth, Session Authentication, RBAC

Architecture & State: Route-Service Separation, TanStack Query, Redux Toolkit, Zustand, Real-Time Systems, API Integration

Generative AI: LLMs, RAG, Gemini, Embeddings, Semantic Retrieval, Prompt Engineering, AI Integration, Qdrant

AI-Assisted Engineering: Codebase Exploration, AI-Assisted Planning, Code Generation, Debugging, Refactoring, Test Drafting, CodeRabbit, Cursor

Testing & Tools: Jest, React Testing Library, Git, GitHub, npm, Vite, GitHub Actions, CI/CD, Agile/Scrum

EDUCATION

University of Engineering and Management, Kolkata

Kolkata, India | Jun 2016 – May 2020

B.TECH. IN ELECTRONICS AND COMMUNICATION ENGINEERING | CGPA: 7.95/10
